Pharmacy Benefit Management

We were founded in 2011 with a vision:

to change the way self-funded organizations benefit from their PBM. We aim to rise up from traditional models that prioritize profits over people. Instead, we focus on meeting clients' needs, helping them save money and achieve success.

A DIFFERENT KIND OF PBM

Phoenix is a modern pharmacy benefits management (PBM) company that helps brokers, TPAs, and consumers benefit from scalable, individualized pharmacy plans that save money on prescription medications and keep people healthy.

As a first-in-class prescription benefit manager, we believe in providing access to custom-built pharmaceutical plans. We believe in empowering our clients to have a say in their healthcare spend, regain control of costs, and truly understand the benefits they are paying for. Let Phoenix help your organization save money and experience a better overall plan.

Open-Architecture Plan Design

We use an Open-Architecture approach to customizing contracts, so our clients are empowered to have a say in their plan components, like vendors and cost-containment tools. This means you can choose the elements that work best for your needs, and nothing that you don't. And we'll implement it in a seamless way that allows for limited member disruption.

Phoenix helps you and your clients take control of costs so you can truly understand the benefits you are paying for.

WHAT SETS US APART?

Through our consultative approach to managing the pharmacy benefits of self-funded health plans, we push through the status quo and provide the best value.

1. Exclusive Pharmacy Network Contracts

We are completely independent and own 100% of our contracts, which means more flexible plan design options and better overall plan management whether you choose an Open, Preferred, or Limited Network.

2. Honest Rebate Opportunities

Our goal is to eliminate the questions—what drugs are included, when, and how much? With Phoenix, it's simple: every rebatable drug, every time. Whatever arrangement best suits your needs, we'll do rebates your way. And we pay out faster than the competition.

3. Customized, Comprehensive Pricing

Whether it's a passthrough or a traditional model, Phoenix finds a way to meet your needs and save you money while offering strong plan benefits to members. We take a comprehensive approach to pricing, completely customizing a model that works for you.

4. Above & Beyond Customer Service

From Implementation to Account Management and Member Services, customer service excellence is integral to our culture. When you partner with Phoenix, you benefit from a relationship that grows your business.
